1. Setting is circus ring with crowd behind him. Clown starts with 6 spinning plates. When user gets answers correct, applause sounds and "clap" treatment appears around happy clown.

2. When user gets an answer wrong, clown drops a plate. He notices it but carries on. Crowd goes "awwww!"

3. If a user proceeds to get more answers wrong, more plates fall, and a striped cane appears from the right of the screen.

4. As the user gets more answers incorrect the cane pokes out a little more with each incorrect answer.

5. When the user has only two plates left (two chances), a bird appears and flutters around the screen.

6. When user gets to only one chance left, bird lands on the clowns head.

7. When the user gets all the answers wrong, the bird flies up and knocks the final plate from the clown's head and lands on his hat.

8. The cane comes out and pulls him off stage.

9. The user will be prompted to try again if they got the word wrong.

10. When the user successfully determines the word correctly, the crowd goes wild. "Clap" words appear and the clown widely smiles and pumps his fists. "Good Job!" appears above the stage.
